

LIMITLESS LEARNING FORTNIGHT

7TH - 18TH JUNE 2021

Join GDST students from across the nation for a fortnight of events designed to give you a hearty farewell from school and an exciting introduction to the next phase of your life journey. Expect inspiring keynote talks, exciting university seminars on your course choices, useful workshops and unique opportunities to make meaningful connections.

Have a look at what is on each day at 1pm and 3pm, read the event descriptions and then head to GDSTLife to sign up. At 3pm choose between a University Bridging seminar, an opportunity to delve into a theme at a university level, or a Real World ready workshop where you can learn a new skill or discover a new passion.

You are welcome to join any event that is of interest to you, regardless of your course choices. Feed your curiosity, nourish your mind and join as many sessions as you would like. We look forward to welcoming you.

Once you have signed up, you will receive a receipt that will provide you with a timetable for the fortnight. Joining instructions will follow in your emails from each event organiser at least 24 hours ahead of the session.

1pm	Keynote Sessions	Mental Toughness	Penny Mallory is a former Rally Champion and leading authority on Mental Toughness. She turned her life around from a homeless runaway to become the first woman in the world to drive for Ford in the World Rally Championship. So, how did she do that, and why is this relevant to you?
1.40pm	Bridging Timetable	Dance	The history of Jazz dance through Musical Theatre and the Healthy Dancer (Part 1)
3pm	Bridging Timetable	Biology and Biological Sciences	The Evolution of the Human Species
		Criminology	The Economics of Crime
		Design and Architecture	Tools of Thought: how spaces affect thinking, feeling, being...
		Geology and Earth Sciences	The Geology of Mars
		History	Holding History: Museums and material culture as a portal to the past
		International Relations	How to discipline a sovereign state
		Law	Preparing to study Law. (Part 1, Part 2 on 16th June)
		Marketing	Driving business success
		Physics	The Science and Philosophy of Sci Fi - Time
		PPE	Democracy and Dictatorship – and some things in-between
		Psychology	University Bridging Seminar
		Theatre and Performance	Bridging Seminar
	Real World Ready	Do I need to live on baked beans? Managing your finances	
		Mobile Journalism using your smartphone	
		Graduate Top Tips	

1pm | Keynote Sessions

City Social 1

Meet GDST students going to live, study and work in (or near!) the city you'll be moving to

3pm | Bridging Timetable

Biochemistry and Pharmacology

The Role of Biologists in Early Drug Discovery: Studying Diseases of Ageing

Classical Studies

Doomed to fail: the impossible task of creating art in Ovidian poetry (Part 1)

Computer Science

University Bridging Seminar

Criminology

Does criminal profiling work or is it just good TV?

English, Classics, Film & Theatre

What a Joke: Humour Theory and Why We Laugh

French

"La Grandeur et la Décadence de l'Empire Français"

Graphic Design

Essential Design skills

Psychology

An exploration of social constructionism within psychology

Spanish

A real taste of a Cambridge University oral examination

Sport and Sport Science

An investigation into the Central Governor theory - mind over matter

Theology

Do "Black Lives Matter" to God?

Real World Ready

Academic Integrity at University

Cooking low cost delicious and easy meals at university

So, that gap year...

Strategies to avoid procrastination and develop good habits

Be Confident with Research

1pm | Keynote Sessions

Subject Social 1

Meet GDST Year 13s planning to take the same uni subject, career or apprenticeship as you

3pm | Bridging Timetable

Real World Ready

Art History

Elements of painting

Biology and Genetics

Cancer - Myths vs Reality

English Literature

Postmodern Literature: Memory and rememory (Part 1)

English Literature

Deconstructing Dystopia

French

Understanding the tensions between French police and France's youth

History

Everything You Wanted To Know About History But Were Too Afraid To Ask

International Business Management Seminar

An introduction to some of the key ideas in International Business Management

Physics and Astronomy

Time Dilation and Special Relativity

Policing

Apprenticeship and post-grad opportunities in the police

Theology

CSI Jerusalem – Evidence for the Resurrection

Veterinary Medicine

Veterinary Parasitology: To worm or not to worm?

Early Years and Primary Education

Join a primary school head teacher to discuss this fantastic career

The Trial of O.J. Simpson (Part 1)

Transitioning from school to university sport

Maximising Your Impact

Academic Integrity at University

1pm | Keynote Sessions

Enjoy the Journey

Managing your mind in times of transition

3pm | Bridging Timetable

Biomedical Science

Gender science: why being a woman is bad for your health

Chemistry

Electrons, Waves, Bonding and Mechanisms

Classical Studies

Doomed to fail: the impossible task of creating art in Ovidian poetry (Part 2)

Studying English at University

Join this seminar if you are planning to study English at university. (4pm start time)

Environmental Science

39 Ways to Save the Planet

Studying German at University

Join this seminar if you are planning to study German at university

History

A study of Cesare Lombroso - 19th Century 'degeneracy'

Linguistics & Film

Subtitling and dubbing for film and TV

Mathematics, Physics & Astronomy

Partial Differentiation

Medicine

Problem Based Learning at Medical Schools

Physics: Physics for YOUR future

Covering topics that you may not have encountered during A-Levels

Politics, Sociology, Law & Philosophy

Justice: What's the right thing to do?

Product Design

Problem solving with impoverished communities

Sociology and Social Sciences

How globalisation in the media is reshaping our lives

Spanish

"Roma", a film by Alfonso Cuarón

Real World Ready

Spanish for beginners. Will I be able to get by in a Spanish speaking country?

When the party's over and you need a chicken tikka masala

Personal Safety for women

Mobile Journalism using your smartphone

Limitless Leadership (Part 1)

1pm | Keynote Sessions

Bring it on!

Becoming an awesome university student

3pm | Bridging Timetable

Classical Studies

Ancient Near East

English

Literary Modernism

Philosophy

Is it possible to live an authentic life when we are 'condemned to be free?'

Veterinary Seminar

Intro to vet school

Real World Ready

So, that gap year...

Help! I've got a hole in my pocket, how can I manage my finances better?

1pm | Keynote Sessions

City Social 1

Meet GDST students going to live, study and work in (or near!) the city you'll be moving to next year. Make new friends ahead of your big move, ready to support you as you start your exciting new chapter. Sign up and you'll receive joining instructions to this virtual meet.

3pm | Bridging Timetable

Real World Ready

Archaeology and Anthropology

A Guide to Becoming Human

Classical Studies

University Bridging Seminar

Criminology and History

The significance of the Mangrove Nine

Dance

The history of Jazz dance through Musical Theatre and the Healthy Dancer (Part 2)

English

Putting the Earth First: Overcoming the Human Ego in Nature Poetry

Italian

Postwar Italian Cinema: Italian Neorealism

Marine Biology

How are Plastics interfering with Marine Biogeochemical Systems and Species?

Maths and Computer Science

Artificial Intelligence and Machine learning.

Music

Approaches to musical analysis

Nutrition

Diet through the centuries: 'Stone age to Obese age'

Physics

Special Relativity

Politics and American Studies

America is not broken - it was built this way.

The Trial of O.J Simpson (Part 2)

Classical music's greatest hits

Do I need to live on baked beans? Managing your finances

Climate Change & Sustainability: From learning to action

Communication skills: from reel to real (managing the lockdown transition)

How Megatrends are changing the world of work and how is this impacting the way we work at PwC

1pm | Keynote Sessions

Subject Social 1

Meet GDST Year 13s planning to take the same uni subject, career or apprenticeship as you

3pm | Bridging Timetable

Architecture

Between buildings. Where does Architecture stop & start?

Business, Finance, Management and Economics

Join this university bridging seminar led by PwC

Chemistry

Extension to A-levels and a history into drug design

Classical Studies

Doomed to fail: the impossible task of creating art in Ovidian poetry (Part 3)

Drama and Theatre

University Bridging Course

Earth Sciences and Geography

Snowball Earth or Slushball Earth?

English Literature

The Language of Literature: Analysing Texts at a Micro Level

International Relations

Why has peace keeping failed in resolving the Arab/Israeli conflict?

Linguistics and Film

Subtitling and dubbing for film and TV

Medicine

Flying start for Medics

Neuroscience

Where electricity becomes human

Physics

The Science and Philosophy of Sci Fi - Teleportation

Spanish

Exploring satire in the film 'Bienvenido Mr Marshall'

Sport and Sport Science

Exploring a dissertation in sport

Zoology

How animal pathogens can cause global pandemics

Real World Ready

Hey Citizen! How to be an awesome member of society. Make a difference in the world

Be Confident with Research

Life hacks and interior design for your university room

1pm

Bridging Timetable

Education

Becoming a teacher

English Literature

Postmodern Literature: Memory and rememory (Part 2)

Fashion

The history of the corset

Law

Preparing to study Law. (Part 2)

Medicine

Talk to a first year medic and army doctor

Oceanography

Thermohaline Circulation Shut Down: What would this mean for us?

3pm

Keynote Sessions

GDST Graduation Assembly

One of a Kind, Part of the Family

11am

Bridging Timetable

Real World Ready

Philosophy and Religious Studies

Comparative Religion and the Historical Lens

Stand out applications for summer or gap year jobs

Limitless Leadership (Part 2)

G D S T

GIRLS' DAY SCHOOL TRUST

SIXTH FORM

LIMITLESS LEARNING FORTNIGHT

SESSION DESCRIPTIONS

1pm	Mental Toughness	<p>In this session, Penny Mallory, former Rally Champion, will share her own story and reveal her Mental Toughness formula to help you develop confidence, resilience, commitment, determination and focus so you're better equipped to meet insane targets, crazy deadlines and thrive under extreme pressure. Penny will set you a challenge to start building your resilience immediately!</p> <p>The Mentally Tough prosper and succeed in today's fast pace of crisis, change, uncertainty and innovation. With increased Mental Toughness we can learn to manage the stress and pressures we all face, every day. This is one session not to miss!</p>
1.40pm	Dance	<p>Looking at the origins of Jazz dance right through to Musical Theatre as we know it today. We will also look at how to remain a healthy dancer through nutrition and bory awareness. Please note this is a two part course, taking place on 7th & 14th June.</p>
3pm	<p>Biology and Biological Sciences</p> <hr/> <p>Criminology</p> <hr/> <p>Design and Architecture</p> <hr/> <p>Geology and Earth Sciences</p> <hr/> <p>History</p> <hr/> <p>International Relations</p> <hr/> <p>Law</p> <hr/> <p>Marketing</p> <hr/> <p>Physics</p> <hr/> <p>PPE</p> <hr/> <p>Psychology</p> <hr/> <p>Theatre and Performance</p> <hr/> <p>Do I need to live on baked beans? Managing your finances</p> <hr/> <p>Mobile Journalism using your smartphone</p> <hr/> <p>Graduate Top Tips</p>	<p>Fire gave us power. Farming made us hungry for more. Money gave us purpose. Science made us deadly. This is the thrilling account of the extraordinary history of the human species – from insignificant apes to rulers of the world.</p> <p>We will be discussing crime in terms of risk and rewards, punishment and incentives: how is crime an economic problem?</p> <p>A view from a teacher (but not an architect) on how spaces affect us</p> <p>A virtual trip to see the largest volcano in the Solar System and more</p> <p>An exploration of how historians use archaeology and anthropology to analyse the everyday objects of the past and its people.</p> <p>Exploring the methods open to governments and organizations to intervene when other countries have 'got it wrong'</p> <p>A two part introduction that aims to demystify how to read and interpret a law case before handing over to you to run a moot - a mock court hearing that will provide the opportunity for you to test your logic and presentation skills. The course will be supported by the GDST legal team with their experience of law in practice. Please ensure you sign up to both sessions.</p> <p>If you're interested in business, psychology or social studies, then this is a degree for you. Join this seminar to discuss this creative buisness-focuseed subject. An introduction to Marketing.</p> <p>The relativistic underpinnings and ethical implications of time travel and its presentation in science fiction</p> <p>A discussion of what makes a country a democracy, or a dictatorship – and what to think about the (many) countries that fall "in-between"</p> <p>Join this seminar if you are planning to study Psychology at univeristy</p> <p>In this seminar, we will explore a broad range of theatre-related specialisms designed to prepare you (and whet your appetite!) for studying Theatre and Performance at university. In particular, we will consider the importance of the relationship between theory and practice. The seminar will look at the ideas and features of: key practitioners, theatrical genres, performance analysis and recommended reading and viewing. This will be a very brief but focused session, providing a springboard to undergraduate study.</p> <p>Hints and tips for managing your banking and finances at university and beyond.</p> <p>A short course to get you started making professional films with minimal kit.</p> <p>Delivered by current students and recent graduates, this interactive talk explores top tips and advice for making the transition to university life. Suitable for post-16 students at all stages, stereotypes and myths surrounding higher education are tackled head-on, alongside an exploration of frequent worries and concerns students may have before going to university.</p>

1pm	City Social 1	Meet GDST students going to live, study and work in (or near!) the city you'll be moving to next year. Make new friends ahead of your big move, ready to support you as you start your exciting new chapter. Sign up and you'll receive joining instructions to this virtual meet.
3pm	Biochemistry and Pharmacology	Diseases of ageing, especially neurodegenerative diseases, pose a huge challenge for modern medicine. Biologists, chemists and pharmacologists in the pharmaceutical industry work as a team in order to tackle unmet health needs in patients, going from the test tube to the clinic. This session will focus on the role of biologists in the early drug discovery process and how this can lead to finding new drugs for neurodegenerative diseases.
	Classical Studies	This course will look at the theme of 'the artist' as it appears in three mythic episodes across Ovid's epic poem "The Metamorphoses". We will consider the context to Ovid's writing, linguistic detail and thematic analysis. This is over three sessions Tuesday 8th, Thursday 10th and Tuesday 15th June.
	Computer Science	This is a seminar for anyone interested in studying Computer Science at university. Some of the topics to be covered are as follows: beyond the offer: I will suggest educational resources that will help you to prepare for the first year of your degree over the summer holidays. Do's and don'ts: How to conduct yourself in interviews and get computer science related work experience. Fact or Fiction: Debunking some myths and uncovering some truths about life as a computer science student at university. Work-life balance: Find out how your personal timetable may compare to your peers studying non-computer science related degrees.
	Criminology	Does criminal profiling work or is it just good TV?
	English, Classics, Film & Theatre	The American writer and humourist E. B. White once observed that 'humor can be dissected, as a frog can, but the thing dies in the process and the innards are discouraging to any but the pure scientific mind'. This seminar proposes to do just that -- to take a scalpel to humour, dissect it and see how it works. Humour, after all, is not only another literary feature, but the defining feature of many important genres, and a central component of how humans interact with and relate to each other. We will explore the history of Humour Theory from Aristotle to Freud, and look at four different models purporting to explain why we laugh at a given joke. The fundamental, guiding question we will ask in this seminar is: why is this funny?
	French	An exploration of the development of the French Empire, colonialism and its lasting legacy.
	Graphic Design	Intro to G.D. with lots of advice and tips with links to essential basic design skills. Further reading and research links too.
	Psychology	"Society holds the key to understanding human nature". Can we breakdown these socially constructed barriers that we face on a daily basis?
	Spanish	Dynamic and fluent discussion of extracts taken from Cambridge oral examinations about a huge variety of topics such as politics, technology, social and environmental issues or the latest news.
	Sport and Sport Science	The central governor theory has recently been proposed as a general model to explain the phenomenon of performance fatigue, but is this accurate?
	Theology	After all the campaigning about Black Lives Matter this year, it would be good to look at Black Theologies of Liberation. Does Christianity have something to say about racial discrimination?
	Academic Integrity at University	Ensuring good academic practice to avoid cheating, collusion and copying with a basic intro to referencing styles and overview of 'contract cheating'
	Cooking low cost delicious and easy meals at university	You will develop your understanding of food and nutrition, learning how to make quick, easy to prepare and well-balanced meals that are low cost and delicious.
	Strategies to avoid procrastination and develop good habits	Developing atomic habits, leading to change in your life outcomes from small changes!
Be Confident with Research	Start your life as a university student with an advantage. Using case studies look at how to read broadly and critically and how to feel confident in your research from the beginning of your course.	

1pm	Subject Social 1	Meet GDST Year 13s planning to take the same uni subject, career or apprenticeship as you. Make new friendships, and share knowledge, ideas and opportunities as you build your national network and prepare for future careers. Sign up and you'll receive joining instructions to this virtual meet
3pm	Art History	A short introductory course on the elements of painting with discussion and analysis.
	Biology and Genetics	Debunking the myths around what causes cancer. Understand the cellular and genetic mechanisms that lead to Cancer and how personalised treatment will work.
	English Literature	An introduction to some key aspects of postmodern thought and how literature reflects these ideas. Please note, there are two parts to this seminar. Part 1 on Wednesday 9th June @ 3pm and part 2 on Wednesday 16th June at 1pm.
	English Literature	Exploration of how writers create dystopian realities through the power of fiction.
	French	The case of Adama Traore, who died in police custody, resonates in France within the context of the Black Lives Matter movement. We will develop an understanding of the broken relationship between the police and young people from the French suburbs.
	History	How to get the most out of your History degree - hints and tips, research, academia
	International Business Management	An introduction to some of the key ideas in International Business Management
	Physics and Astronomy	A philosophical look at scientific development moving on to the most startling consequence of special relativity- time dilation.
	Policing	Hear from a serving police officer, a GDST alumna
	Theology	A comparison of the scriptural analyses of Frank Morison & Ian Wilson in determining the authenticity and reliability of Gospel sources: what happened to the most famous dead body of all time?
	Veterinary Medicine	An introduction to common veterinary parasites and the worming resistance debate.
	The Trial of O.J. Simpson (Part 1)	Exploration Into One Of The Most Controversial Criminal Court Cases Of All Time
	Transitioning from school to university sport	Playing high level sport within school (or in external clubs) and want to know how to get involved in university sport? This will give advice on contacting coaches, pre-season training and joining university sports clubs.
	Maximising Your Impact	Effective Altruism - a session about answering one simple question: how can we use our resources to help others the most?
Academic Integrity at University	Ensuring good academic practice to avoid cheating, collusion and copying with a basic intro to referencing styles and overview of 'contract cheating'	
Early Years and Primary Education	We've all been to primary school as children but you won't know the fantastic challenges and opportunities a career in Primary Education offers. Be ready for surprises about the variety and joy of the profession plus some laughs – small children bring a very special sense of humour and you'll need one yourself!	

1pm

Enjoy the journey

Leaving school this year will be fundamentally different to anything previous generations have experienced before, and transitioning to an unfamiliar environment may be even more challenging. Gaining a deeper understanding of the mind can help you promote a calm and resilient response and meet this challenge head on. Clare Benka will be running a 60 minute webinar designed to help you navigate this time. She will be exploring how you can manage stress and anxiety, provide your friends with much needed support, and establish an individual narrative that promotes a positive and proactive response to whatever lies ahead. The webinar will...

- Outline the core psychological challenges you are facing
- Introduce relevant research from psychology that can help you to better manage uncertainty
- Provide practical insights and advice specifically tailored to help you manage your mind during times of uncertainty
- Provide an opportunity for questions.

3pm

Biomedical Science

Planning to study Biology or Biomedical science? Come and discuss with us in this seminar why being a women is bad for your health.

Chemistry

Applying wave particle duality to chemistry in a more detailed look at bonding and reaction mechanisms

Classical Studies

Doomed to fail: the impossible task of creating art in Ovidian poetry (Part 2)

English at University

Join this seminar if you are planning to study English at university. Please note this has a 4pm start time

Environmental Science

This is where science, geography, economics, politics, psychology and many more collide! We will analyse some of the hope giving case studies in this BBC Radio 4 series to see if they can provide a realistic solution to the climate crisis.

German at University

Join this seminar if you are planning to study German at univeristy

History

An introduction to 19th Century 'degeneracy' theory

Linguistics & Film

Ideal for future languages, film or media studies students, this creative 'snapshot' introduces audio-visual translation theory

Mathematics, Physics & Astronomy

Partial Derivatives (for function of two or more independent variables), First order, then higher order derivatives. This would be suitable for Mathematicians, engineers and physicists.

Medicine

Many Medical Schools now use 'Problem Based Learning ' as an educaional tool. This is an insight into a PBL session.

Physics for YOUR future

Covering topics that you may not have encountered during A Levels but may need for your degree

Politics, Sociology, Law & Philosophy

This session will follow the development of the idea of justice in social and political thought. It is for those interested in politics, sociology, law and philosophy.

Product Design

Learn the skills needed to provide solutions which empower some of the most impoverished communities in the world

Sociology and Social Sciences

A discussion of how media globalisation is affecting our views and reshaping our thoughts and perceptions.

Spanish

Guided discussion in Spanish on the themes observed in the stylish Mexican film Roma, set in the turbulent 70s in Ciudad de México.

Spanish for beginners

If you are keen to learn some basic Spanish, this is your course.

When the party's over and you need a chicken tikka masala

A fun cook along where you will learn how to make an authentic curry with fresh ingredients and can be adapted to suit a vegetarian diet.

Personal Safety for women

This BIG Night Out workshop aims to give students a working understanding of personal safety during a typical night out. This workshop will give you a working knowledge of basic self-defence techniques and an understanding of when and why they are appropriate.

Limitless Leadership

Follow a self-guided online course that covers key elements of leadership to give you the self-knowledge and confidence to lead effectively as you head to university and the modern workplace. Then join these live sessions to discuss module 1 (Leadership styles, 10th June) and module 2 (The Modern Workplace, 17th June)

1pm

Bring it on!

A talk on the transition to university, focusing on both the academic differences between sixth form/college and university, but also looking at moving away from home, increased independence as a student, and the support available to students.

3pm

Classical Studies

A look at the art and literature of the Ancient Near East alongside Classical art and literature. Features key pieces from the British Museum and the epic Gilgamesh.

English

Make It New! Explore the context and writers of this experimental movement.

Philosophy

A critical investigation into Sartre's existentialism as presented in his play, 'No Exit.'

Veterinary Seminar

Everything you want to know about your vet course with a sprinkle of nursing and biovet sciences from a recent(ish) grad

So, that gap year...

Discussing and sharing ideas, opportunities, challenges and tips for gap years.

**Help! I've got a hole in
my pocket, how can I
manage my finances better?**

Independent living is expensive. Learn how to manage finances to avoid money stress as much as possible.

1pm

City Social 1

Meet GDST students going to live, study and work in (or near!) the city you'll be moving to next year. Make new friends ahead of your big move, ready to support you as you start your exciting new chapter. Sign up and you'll receive joining instructions to this virtual meet.

3pm

Archaeology and Anthropology

An anthropological perspective on the processes which convert the biological being that is a newborn baby into a socially defined "person".

Classical Studies

A brief history of the Latin language (with elements of Greek) from 5 Century BC to Medieval Latin. Extension work for those studying Classics at university. Non-linguists welcome too.

Criminology and History

A study of historical documents and consideration of the legal, social, and political implications of the case

Dance

The history of Jazz dance through Musical Theatre and the Healthy Dancer (Part 2)

English

Putting the Earth First: Overcoming the Human Ego in Nature Poetry

Italian

An introduction to Italian post-war (WW2) cinema: Neorealism.

Marine Biology

An introduction to some of the main biogeochemical systems and organisms in the ocean with a discussion of how different types of plastics may interfere with these

Maths and Computer Science

From niche modelling to cyber security: how data science changes the way we think.

Music

An introduction to deep analysis of some Western Classical 'hits' and select repertoire incorporating more adventurous compositional styles throughout the 20th Century. Scores to be sent in advance for pre-listening.

Nutrition

An exploration into how our eating habits have changed considerably from the era of prehistoric man to modern times.

Physics

An introduction to Einstein's theory of special relativity, exploring time dilation and length contraction, velocity addition and Lorentz transformations.

Politics and American Studies

An introduction to the wonderful world of American politics

The Trial of O.J Simpson (Part 2)

Exploration Into One Of The Most Controversial Criminal Court Cases Of All Time

Classical music's greatest hits

A look at the most popular pieces of classical music in the UK. An exploration of why they are so loved, the social and historical factors that shaped them, and a dive into the music itself.

Do I need to live on baked beans? Managing your finances

Hints and tips for managing your banking and finances at university and beyond.

Climate Change & Sustainability: From learning to action

Want to make a real difference? Passionate about saving our planet? A workshop not to miss.

Communication skills: from reel to real (managing the lockdown transition)

Join a drama teacher for this exciting session. Gather tips and tricks to express yourself with confidence, clarity and conviction

How Megatrends are changing the world of work and how is this impacting the way we work at PwC

In this session you'll learn about the 5 key megatrends identified by PwC and other global changes, the impact they're having in the business world and how we're adapting the way we work at PwC.

1pm	Subject Social 1	Meet GDST Year 13s planning to take the same uni subject, career or apprenticeship as you. Make new friendships, and share knowledge, ideas and opportunities as you build your national network and prepare for future careers. Sign up and you'll receive joining instructions to this virtual meet.
3pm	Architecture	A look at the different ways of experiencing the city, its buildings and its inhabitants and how this can help inform architectural design.
	Business, Finance, Management and Economics	Join this university bridging seminar led by PwC
	Chemistry	History of drug design and the journey of drugs from lab to shop shelf.
	Classical Studies	Doomed to fail: the impossible task of creating art in Ovidian poetry (Part 3)
	Drama and Theatre	Join this seminar if you are planning to study drama or theatre at university.
	Earth Sciences and Geography	An investigation to determine the scale of the Snowball Earth ice age.
	English Literature	Do you marvel at the power of words? This session will allow us to analyse writers' choices at a molecular, even an atomic level, by considering some short extracts together.
	International Relations	Twenty years after the last serious effort at a peace process failed; is this conflict doomed to last forever?
	Linguistics and Film	Subtitling and dubbing for film and TV
	Medicine	A case based introduction to medical sciences and clinical skills
	Neuroscience	A look at finding and understanding some neural networks
	Physics	The Science and Philosophy of Sci Fi - Teleportation
	Spanish	We will explore key scenes of this film and analyse how satire has been used throughout. The film will be uploaded to Planet e-stream to watch the film pre-seminar.
	Sport and Sport Science	Exploring a dissertation in sport
	Zoology	Considering the relationships between animal reservoirs and potential human hosts. What implications are there for future spillover events and the next human pandemic.
Hey Citizen! How to be an awesome member of society. Make a difference in the world	So you want to make a difference in the world. Where do you start? Raise a petition? Run for parish council? Blockade Westminster bridge? Perhaps all three. This session will help you navigate the daunting twists and turns of being an active citizen in the 21st century. We're all very good at talking about the problems in the world, but we don't always know what we can do to help. A fun, enlightening and exciting look at how you can be a truly active citizen. This session will give you that confidence toolkit to go out there and make things better in society. Citizens Assemble!	
Be Confident with Research	Start your life as a university student with an advantage. Using case studies look at how to read broadly and critically and how to feel confident in your research from the beginning of your course.	
Life hacks and interior design for your university room	What will you need from Ikea? Making your room yours. Quick tips to make life that little bit easier!	

1pm

Education

An introduction to learning about teaching in school. Great for anyone about to do an education degree or thinking about becoming a teacher further down the line.

English Literature

Make It New! Explore the context and writers of this experimental movement.

Fashion

How does history inform the present? Join this seminar to discuss the value of historical context.

Law

Everything you want to know about your vet course with a sprinkle of nursing and biovet sciences from a recent(ish) grad

Medicine

Hear from a first year Medic, sponsored by the Navy, and from an Army doctor about what to expect at Medical school

Oceanography

An investigation to explore if we should be concerned about the possibility of the thermohaline circulation shutting down.

3pm

GDST Graduation Assembly

Tune in to hear from the GDST's CEO Cheryl Giovannoni in this GDST Graduation Assembly

11am

Philosophy and Religious Studies

Exploration of how we compare religion, cultural norms and ethical issues.

Stand out applications for summer or gap year jobs

Advice and support to apply for part time jobs, volunteer or gap year roles.

Limitless Leadership

Follow a self-guided online course that covers key elements of leadership to give you the self-knowledge and confidence to lead effectively as you head to university and the modern workplace. Then join these live sessions to discuss module 1 (Leadership styles, 10th June) and module 2 (The Modern Workplace, 17th June)
